Little Waters on the Cliff is Jamaica's newest addition to Negril landscape. This exclusive private villa is nestled on the cliff side at the western most point in Jamaica allowing guests to have an uninterrupted view of the Caribbean Sea and the setting sun. Newly constructed, Little Waters on the Cliff is architecturally designed to offer guests a secluded, tranquil environment in which to relax and unwind from day to day stresses.

Little Waters is fully staffed with a chef/butler, housekeeper and grounds person. The housekeeper will keep your villa in perfect condition and do litter laundry for the guests. The cook will shop and prepare meals but guests are encouraged to go the local markets to shop so they can see what is fresh and what the local prices are. If you would like to have the chef do all of the marketing they will be more than happy to do this.

Exploration down sculptured steps along the cliff side reveals two subterranean caves, the larger of which has its own natural sea-water pool. Imagine sitting in this cave, hearing the waves pounding on the rocks below for quite a unique experience! The smaller cave has an inset stone bench, the perfect retreat to sit with your morning coffee, a glass of wine while watching the sunset or, if lucky, see the dolphins swimming by!

Sequestered on one acre of landscaped gardens this three bedroom luxury villa offers stunning views of the ocean from virtually every window - even the perfectly appointed bathrooms. Little Waters on the Cliff is for the discerning and sophisticated traveler. The decor features an uncluttered style, showcasing the best of Balinese craftsmanship.

There is a casual one bedroom cottage if you need a 4th bedroom. This air-conditioned garden cottage is a one bedroom with private bath and walk in shower. Photos of the one bedroom cottage are # 31, 32, 33 and 34
